REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest a die with an internal deckle, the internal deckle having both an inner and an outer deckle member mounted on a mounting clock, the inner deckle extending through the opening of the die and defining a longitudinal slot, the outer deckle concentric about the inner deckle and defining a second longitudinal slot, the inner deckle being rotatable relative to the outer deckle to vary alignment of the slots and create a passageway narrower than either slot. The closest prior art, Cloeren (4,197,069) teaches variable extrusion slot width, but without the use of concentric, relatively rotatable deckles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

References of Interest

2. Groleau (2,982,995), Cloeren (4,197,069) and Bunte et al (3,706,518) are cited of interest to show the state of the art.
